INDEX

FLORENCE

Unassuming, yet thoroughly striking, the Florence Collection celebrates simple candle-style luminaries and minimalistic lines in a nod to antique style lighting. The elegant wagon wheel design is steel construction that is further enhanced by the matte black finish.

ALUMINUM OUTDOOR

R SERIES

RLM, n. 1. abr - reflector luminaire manufacturer; 2. abr - reflector light microscopy

Traditional RLM styles for commercial and residential applications.

- UL: Stem hung shades are UL wet listed and mounting components are sold separately.
- Cord hung shades are UL damp listed and packaged with all required hanging materials.
- Unique stem hung design does not require pipe sealant compound on fittings.
- Unique positive lock feature secures proper angle on Angle and Emblem style wall shades.
- 3/4″ ID rigid conduit or water pipe may be substituted for stems or goose necks.

Materials: All R Series shades are formed from cold rolled steel unless otherwise noted. Steel will rust over a period of time when exposed to outdoor elements. Harsh environments such as blowing salt and/or sand will accelerate the natural rusting process. Millennium Lighting does not warrant our steel fixtures against rust in extended periods of use in outdoor environments. Aluminum and copper do not rust however both materials will patina on extended exposure to outdoor elements.

Finishes: Architectural Bronze, Navy Blue, Gray, Satin Black, Satin Green, Satin Red, Copper and White are electrostatically sprayed and oven baked with UV stabilized paint appropriate for indoor/outdoor use. All shades, excluding Copper and Galvanized, incorporate white liners for increased light reflectivity. Matching colors are available in spray can form from various paint retailers. Galvanized is zinc plated steel with a clear protective overcoat. Polished Nickel is a high polished plated finish only available with the fabric cord.

When looking to create the perfect ambiance for residential and commercial spaces alike, few lines compare to the R Series Collection. A wide range of colors and finishes enhance these classic designs and will elevate any interior space.

NEO INDUSTRIAL

NEO INDUSTRIAL:

Industrial styles updated in popular finishes for residential and commercial applications. All Neo Industrial fixtures are UL damp listed (excluding the cord hung pendants) and are packaged with all required hanging parts.

- All Neo Industrial style hanging fixtures are stem hung and supplied with the following three sections: 18″, 12″ and 6″. Length of wire will allow for (2) additional 12″ rods.
- Stem hung fixtures may be semi-flush mounted by removing all stems.
- The ball mount hanging system will swivel up to 60 degrees.
- Suitable for damp locations (excluding the cord hung pendants).

Fusing mechanical design with domestic style, the Neo Industrial Collection creates a bold statement with minimal design tropes. The juxtaposition of modern form and the look of timeworn materials elicit the perfect design balance.

NEO INDUSTRIAL
